Modern and effective Socio-economic Sciences and Humanities policy needs to be based on the latest scientific evidence. Yet research results are not always fully reflected in policy making.

Socio-economic and Humanities Research for Policy News Alert Service strengthens the links between research funded under the European Union's 6th and 7th Framework Programmes for Research and policy by placing the latest research findings in a policy context.

The News Alert Service is designed for:

- Policy makers at local, regional, national and European levels
- Civil society organisations working on social issues, such as trade unions
- Business community and professional associations
- Media covering social, economic and humanities issues

Policy relevance

Maintaining European competitiveness and the wellbeing of citizens is a complex task. *Socio-economic and Humanities Research for Policy News Alert Service* helps policy makers respond to the complex economic and social dynamics of the modern world by providing access to the latest research results.

Articles for the monthly e-News Alert Service are selected for their policy relevance, and address the major challenges facing the social, economic, political and cultural make-up of Europe.

Research activities presented are:

- Growth, employment and competitiveness in a knowledge society
- Combining economic, social and environmental objectives in a European perspective
- Major trends in society and their implications
- The role of Europe in the world
- The citizen in the European Union
- Socio-economic and scientific indicators
- Foresight activities

About this service

Socio-economic and Humanities Research for Policy News Alert Service is produced by the Science Communication Unit at the University of the West of England, Bristol. The service is part of a three year project funded by the European Union under the 7th Framework Programme for Research. Editorial advisors for the project are drawn from a wide range of Socio-economic Sciences and Humanities research disciplines.
